I think that you may be interested in the Director of Training's evaluation of the clerical training program over station WETA.

Mr. Richardson's conclusions are based on the fact that the television program duplicated much of our clerical training; it was felt that results were not commensurate with the time involved in the 14 sessions; the two very competent instructors were tied up during this period, and the cost to participate is considered to be excessive. I understand that these conclusions also represented the thinking of several other agencies that participated.

MEMORANDUM FOR: Deputy Director for Support

**SUBJECT : Evaluation of Civil Service Commission-
WETA Television Training Program:
"From Nine to Five"**

1. This memorandum is for the information of the Deputy Director for Support. Further, the Executive Director - Comptroller's interest in the subject program can be inferred from his letter of 21 October 1968 which advised Executive Director Nicholas Oganovic of the Civil Service Commission that the Agency had "made arrangements to facilitate maximum participation in the program."

2. Twenty Agency clerical personnel and two instructors participated in the pilot running of this closed-circuit television training program during the period 25 October - 17 December 1968 -- at a cost to OTR of \$900.00, or \$45.00 per student.

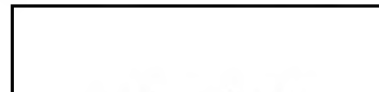

3. We were disappointed in this program, and we understand that other agencies were also. The National Institutes of Health, we understand, abandoned the program about midway in its running. We are not participating in the January-February 1969 running of the program because it is an exact duplication of the pilot presentation.

4. Before we commit the Agency to participate in the March-April 1969 running, we should like to study the changes which the Commission and WETA are making in the television presentations, as well as certain changes also being made in the classroom discussion

SECRET

methodology. Accordingly, our clerical training faculty is keeping in touch with the Commission with respect to the Commission's reworking of the program materials and methodology, and I am looking to our faculty to advise me as to the merits of further participation in this program.

5. If the decision is made to participate in the revised program, we will want to use students who have been on the job for at least six months to one year, and we may have to recommend that the costs be prorated to the students' components. I am alluding to the fact that our participation to date has been strictly of the token variety, twenty students at a cost of \$900.00. If we were to become heavily engaged in such training, as the Commission tends to recommend to all agencies, we would be expending several thousand dollars in any given year. Five groups of twenty students each on a quarterly basis would cost \$18,000 -- and even these numbers would be considered minimal participation by Commission standards.

MEMORANDUM FOR THE RECORD

SUBJECT: Television Training Course for Clerical Employees

STAT 1. As directed, Mr. []/OP attended a meeting at television station WETA on 21 October 1968.

STAT 2. He found that this meeting consisted of a gathering of training officers from various agencies of the government and was essentially a sales effort on the part of the television station to sell the clerical training program. Mr. [] orally reported on his visit to the Director of Personnel and to personnel of the Office of Training who have been enmeshed in this program for some time. Mr. [] comment was that the film shown them was not too good and the lunch served them was pretty poor.

STAT 3. The Office of Training ^(SUPPORT SCHOOL) has the ball for the Agency insofar as this program is concerned.

Honorable Richard Helms
Director of Central Intelligence
Central Intelligence Agency
Washington, D. C. 20505

Dear Dick:

It is my pleasure to inform you that the Civil Service Commission and WETA TV Channel 26 will telecast a training course via WETA facilities in October. This program, which is designed exclusively for clerical employees, is the result of many months of consultations and close working relations among agency training officers, Commission staff, and WETA officials.

I think this effort will be of interest to you because:

- It represents a partnership between Government and the television industry in the meeting of training needs of Federal employees.
- The group to be served through this program are the hundreds of thousands of clerical employees, predominantly women, employed by the Government.
- The design of this program is unique in that it uses the media of television to maximum advantage. The methodology to be employed is fresh and exciting.

The course itself consists of 14 sessions, with one half hour of each session devoted to television viewing. The course objectives are:

- to build an awareness of desirable personal and professional clerical traits and skills
- to develop greater self-confidence, self-reliance, and positive attitudes to the work situation, and
- to build greater functional understanding of the role of the employee to the organization mission.

THE MERIT SYSTEM—A GOOD INVESTMENT IN GOOD GOVERNMENT

-2-

We feel that this course not only meets the critical training needs of clerical employees but also recognizes them as the valuable resource they are to the Government, a recognition too often overlooked.

The enclosed brochure describes the program in greater detail and supplies cost information and dates of televised lessons. I hope that all department and agency heads will personally see to it that their clerical employees are given an opportunity to participate in this program as soon as it is practicable. Please give your wholehearted support to this very worthwhile venture.

Sincerely yours,

/s/ John
